Portfolio LinkedIn

PROFILE

UI/UX and product designer experienced in responsive websites, SaaS interfaces and business software. Skilled in Figma components, auto layout and interactive prototyping, with a focus on clear workflows and effective developer collaboration. Builds websites using AI-assisted development and practical HTML, CSS and JavaScript fundamentals.

EXPERIENCE

Jeevan Infotech | Junior Designer Present

- Design responsive product interfaces for operational and business workflows.
- Create reusable components, interaction patterns and empty, error and success states.
- Clarify requirements and edge cases with stakeholders; document designs for developer handoff.

Vidmagin Innovations Pvt. Ltd. | UI/UX Designer Dec 2025 - Feb 2026

- Conducted UX research and reorganised website content to improve hierarchy, usability and clarity.
- Designed responsive interfaces and prepared structured specifications for developer handoff.
- Created 20+ brand assets, including presentations, posters and social media creatives.

E-Sutra Technologies Pvt. Ltd. | UI/UX Designer Intern Jul 2025 - Nov 2025

- Designed responsive web and mobile interfaces across 3+ client projects.
- Created user flows, wireframes and interactive Figma prototypes; documented designs for developer handoff.

SELECTED PROJECTS

Vidmagin | HR-tech website redesign - Connected UX research, content hierarchy and responsive UI through a consistent visual system.

ClientDesk | Customer-support SaaS concept - Organised product information around the support lifecycle to communicate features and value clearly.

AakashAgro | B2B export website concept - Designed a product-focused website narrative covering origin, quality and clear trade-enquiry paths.

Portfolio includes 7 projects across SaaS, HR tech, B2B export, travel and dashboards.
