AAKASH P

UI/UX & PRODUCT DESIGNER

Coimbatore, India | +91 63816 59522 | aakashh.contact@gmail.com
Portfolio | **LinkedIn** | **Dribbble**

PROFILE

UI/UX designer with hands-on experience shaping responsive websites, dashboards and SaaS interfaces from user flow through developer handoff. Skilled in Figma, information architecture, prototyping and design systems, with practical HTML, CSS and JavaScript awareness. Currently designing business software at Jeevan Infotech.

EXPERIENCE

Jeevan Infotech | Junior Designer — **Present**

- Translate operational and business workflows into clear, responsive product interfaces.
- Define reusable components, states and interaction patterns for implementation-ready screens.
- Collaborate with developers and stakeholders to clarify requirements, edge cases and handoff details.

Vidmagin Innovations Pvt. Ltd. | UI/UX Designer — **Dec 2025 - Feb 2026**

- Conducted UX research and reorganised the company website to improve hierarchy, usability and content clarity.
- Designed responsive interface directions and prepared structured developer handoff.
- Produced 20+ brand assets across presentations, posters and social media creatives.

E-Sutra Technologies Pvt. Ltd. | UI/UX Designer Intern — **Jul 2025 - Nov 2025**

- Designed responsive web and mobile interfaces across 3+ client projects.
- Mapped user flows and produced wireframes and interactive prototypes in Figma.
- Refined usability and documented specifications for developer handoff.

SELECTED PROJECTS

Parking Spot | **Independent app concept & website design** — Identified the challenge of finding suitable parking before arrival; proposed a discovery app and designed a responsive website to introduce it.

Vidmagin | **HR-tech website redesign** — Reorganised product content and designed responsive layouts to make the hiring platform and next steps easier to understand.

NutaLink | **Agro B2B website design** — Designed product-category discovery, business-connection paths and an enquiry route for an agricultural network.

DESIGN IMPACT

- Completed 7 portfolio projects spanning SaaS, HR tech, B2B export, travel and dashboard experiences.
- Combine visual-design craft with practical front-end awareness to create realistic, buildable interfaces.
- Communicate decisions through interactive prototypes, component specifications and structured handoff notes.

CORE SKILLS

Product & UX: Product design, UX research, user flows, information architecture, wireframing, usability testing

Interface Systems: Responsive web and mobile UI, visual hierarchy, typography, design systems, components

Tools: Figma, FigJam, Adobe XD, Sketch, HTML/CSS/JavaScript basics

Delivery: Interactive prototyping, developer handoff, design documentation, stakeholder communication

DESIGN STRENGTHS

- Break complex forms and data-heavy workflows into understandable steps and reusable components.
- Design with real content, responsive constraints and useful empty, error and success states in mind.
- Document interaction details and collaborate closely with developers to reduce implementation ambiguity.
